ABOUT ME

I am a meticulous and organized professional seeking to join a company in the IT field. I possess strong communication and technical skills, with a proven ability to identify and implement effective solutions. My expertise includes handling complex projects efficiently. I am innovative, creative, and eager to contribute ideas while continuously learning and growing.

EXPERIENCE(INTERNSHIP)

Edunet Foundation   **(Sep 2023 - Nov 2023)**
- I completed a comprehensive three months Virtual Internship Program in Artificial Intelligence and Machine Learning.
- Completed the Project in AI-ML Domain.

CodSoft   **(Oct 2023 - Nov 2023)**
- Gained the valuable Practical Experiance in Python Programming during1-month Internship at CodSoft.
- Did multiple Projects Based on the Python Language

PROJECTS

Disease Recognition System Using Symptoms   Link
- This project explores the application of machine learning algorithms to predict diseases based on symptoms.
- **Technology used:** Naive Bayes, Decision Tree, Random Forest ,K-Nearest Neighbors Algorithm.

To Do List   Link
- This project explores the basics of Web development.
- **Technology used:** HTML, CSS, JS.

EDUCATION

2022 - 2026	**Noida Institute of Engineering and Technology, Greater Noida** *B.Tech in CSE(Artificial Intelligence and Machine Learning)*	(CGPA : 7.61)
2021 - 2022	**Divine Sainik School, Varanasi** *Class 12th*	(PCME, 75.2%)
2019 - 2020	**Divine Sainik School, Varanasi** *Class 10th*	(PCM: 84.8%)

SKILLS

Programming Skills	Python (Pandas, NumPy, Matplotlib/Seaborn, Scikit-learn),Java Programming, Machine Learning, SQL. .
Other Skills	HTML5, CSS3, MS Excel, Jupyter Notebooks, SQL Developer

CERTIFICATION

CodSoft   Link
- Certificate of Completion Internship in Python Programming

Edunet Founation   Link
- Certificate of AI-ML Virtual Internship

Cisco   Link
- Data Analytics Essentials

ACHIEVEMENTS

- 4* on Hacker Rank in Java.
- Campus Ambassador at GeeksforGeeks.
